

SEEKING VOLUNTEERS FOR A RESEARCH STUDY

We are doing research on the pollution people are exposed to following hurricane-related flooding.

Oregon State
University

To participate in this research, you must have

- Been living in a home/apartment that flooded due to Hurricane Florence *and/or*
- Been working on Hurricane Florence flood clean-up (i.e. muck and gut, etc.) *and*
- Understand English

Does this apply to you? You may be able to participate in our study. Up to 75 people may participate; no more than 2 per household, children are eligible. Participants will receive a \$20 gift card upon completing the study.

Participation in this study involves:

- Wearing a silicone wristband for 7 days
- Filling out questionnaires (around 30 min each)

To find out more information about this study, please see our website:
